

Leather Maintenance

Rockwood products use the finest English Bridle and Upholstery leathers, hand-sewn by talented craftsman. Please see below for information on our leather materials and how to properly maintain them.

All leather pulls leave our factory with an initial coating of leather dressing.

Upholstery Leather

- Breathable, protective finish
- Best cleaned by wiping with cool, damp cloth
- For tougher soiling, use pH balanced soap on a cloth and rinse with cool water (repeat if necessary)
- Do not use wax, mink oil, saddle soap, or polishes
- Occasional use of finished leather cleaner, conditioner, or protector is recommended

English Bridle Leather

- Clean as necessary with damp cloth and allow to dry
- Apply light coat of leather care product, allow to dry, and buff with soft cloth
