Printed in U.S.A. 7400-0213

Notes:

- 1. This template is an addition to the device template. Locate centerlines using horizontal and vertical references on device template.
- 2. Do not scale drawing.
- 3. Dimensions are in inches (mm).
- 4. LHR door shown. Preparation is typical for both door hands.
- 5. For door reinforcement see template 7400-0000.
- 6. Prepare mounting holes when installing the trim.
- 7. Provide adequate internal support to prevent door deformation after trim is bolted to the door.
- At specifiers option ANSI A115.2 cutout thru door may be substituted. If type 161 stock doors are used a filler plate (by others) is required for the door edge.
- 9. Dimensions given about a centerline are symmetrical.

213F and 217F Trim Application for Metal Door with 2100(F) Series Rim and Vertical Rod Exit Devices
