

# X Series

Grade 1, heavy-duty cylindrical knob locks

When you need a tough, reliable lock that can also withstand the corrosive conditions of a marine environment you need a Falcon X Series lock with our stainless steel (SS) construction. The SS option provides a stainless steel and nonferrous constructed chassis that, when paired with stainless steel trim, provides a Grade 1 lock that is resistant to corrosion when exposed to moisture and salt. This full knob line features an interchangeable core that can be removed for quick, easy re-keying. Our interchangeable cores are compatible with SFIC products from other manufacturers. And they're backed by one of the best names in the business.

## Features

# X Series

## Features

**Door thickness:** 1 3/8" to 1 7/8" doors. Locks for thicker doors also available. Consult factory.

**Backset:** 2 3/4" standard. 2 3/8" also available.

**Mechanism:** Parts constructed of brass or cold formed steel, zinc plated and dichromated for rust resistance. Springs are stainless steel. SS Series available with all internal parts of stainless steel or other nonferrous materials.

**Attachment:** Locks secured to door by threaded collars. Inner collar tightened by special wrench furnished with each lock. Outer rose contains locking plate to prevent unauthorized removal.

**Handing:** Specify hand of door when ordering. Field reversible.

**Cylinders:** Drilled with 6-pin chambers, pinned in 5. Pinning in 6 chambers available when specified, at no cost. 7-pin cylinders available in Hana design. Cylinder assemblies removable to rekey or change hand of lock. Also available with 6 or 7-pin interchangeable core cylinders—Elite and Troy designs. Cylinder housings and plugs machined from solid brass. Springs are phosphor bronze. Two nickel silver keys furnished standard. See page 48.

**Keyways:** "G" keyway standard on standard cylinders. "A" keyway standard on I/C core cylinders. Also available with other keyways and some competitor keyways. See page 50.

**Trim:** Roses are heavy wrought brass, bronze or stainless steel, installed over wrought steel reinforcing plates. Knobs are brass, bronze or stainless steel secured by a steel knob retainer which cannot be depressed when lock has been locked. See individual designs on pages 46 for details.

**Latches:** 1/2" bolt projection, UL Listed for A-label applications. Standard latch faceplates 2 1/4" x 1 1/8" with square corners to accommodate beveled or flat front doors. 3/4" projection, UL Listed latch with 2 3/4" backset also available.

**Strikes:** 4 7/8" x 1 1/4" ANSI strike with curved lip to meet ANSI A115.2 standard door frame preparation standard. Consult Options and Accessories section for other strike sizes and configurations.

**Screws:** Furnished with combination wood/machine screws for use in wood or metal doors and frames.

**ANSI/BHMA:** Meets ANSI/BHMA A156.2, Series 4000, Grade 1.

**UL:** 3 hour A label.

## Specifications

**Key-in-knob cylindrical locksets shall be Falcon Lock X Series or equal and meet the following requirements:**

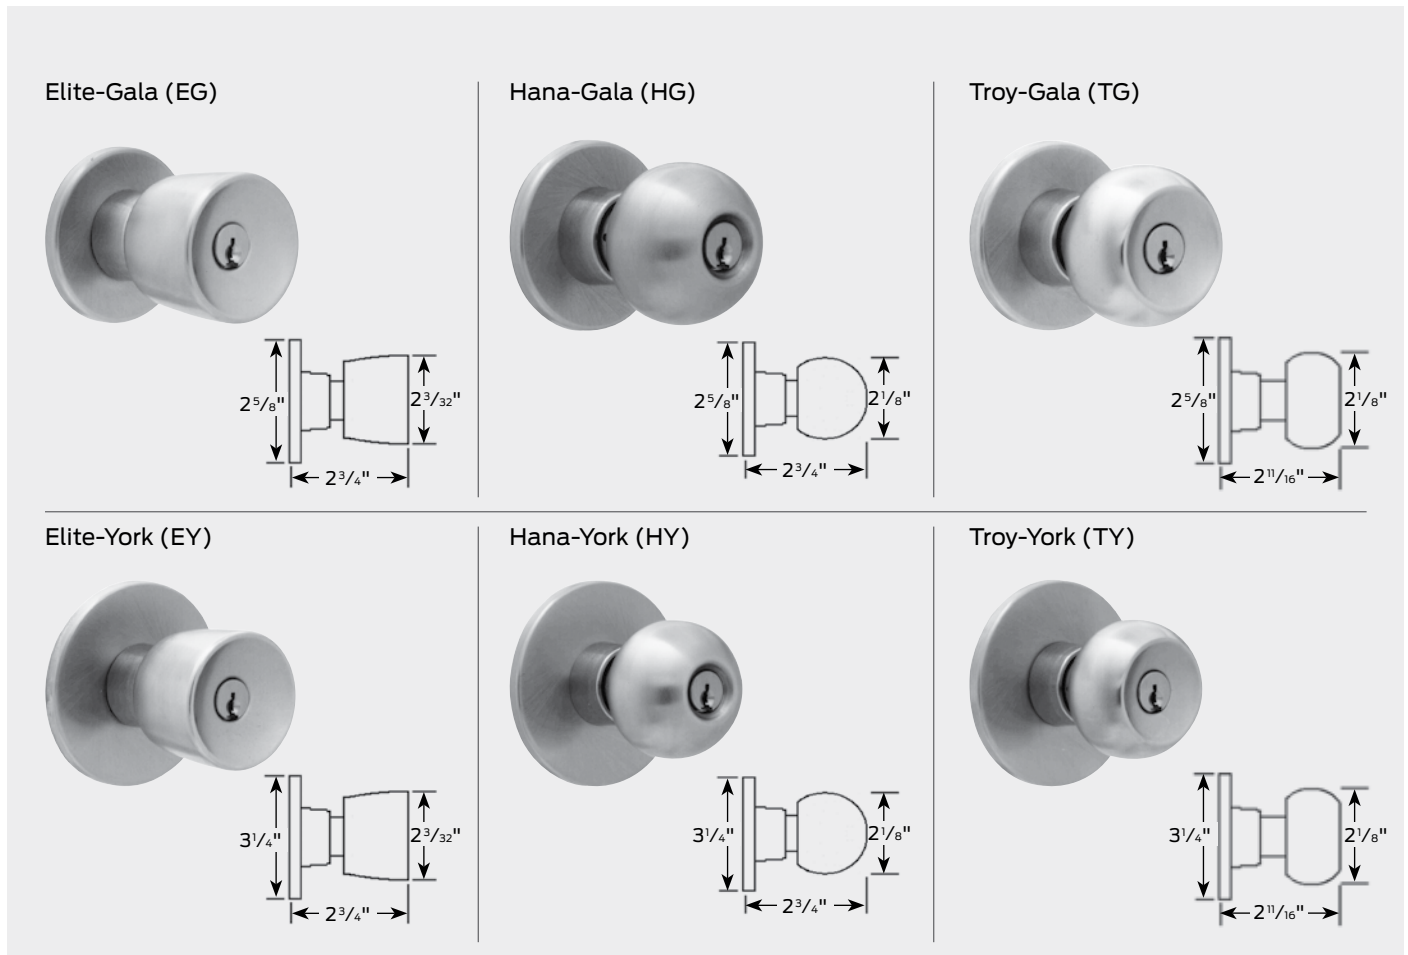

- All locksets and latchsets shall meet Grade 1 requirements of ANSI/BHMA 156.2, Series 4000.
- Locksets and latchsets shall be UL Listed for use on 3 hour A label doors.
- Locksets and latchsets shall have 3 1/4" diameter round roses.
- Knobs shall be .050" minimum thickness.
- There shall be no exposed screws on trim.
- Locksets and latchsets shall have threaded collars for easy door thickness adjustment on both sides of lock.
- Cylinders shall have a minimum of 6 active pin chambers and shall be furnished with 2 nickel silver keys.
- Locksets shall have 6-pin (or 7-pin) interchangeable cores.

Designs and styles

# Lever styles

Knobs and roses are wrought brass, bronze or stainless steel (Troy) installed over steel or nonferrous reinforcing plates. Knobs are secured by a spring-loaded retainer. Retainer cannot be depressed when locks have been locked.

**Abrasive coated levers**

All trim is available with abrasive coating around the circumference of the knob to identify entrances to hazardous areas to the handicapped. To order, add: “with abrasive coated outer knob” in detail section of order.

**Knurled knobs**

All heavy duty knobs are available knurled to identify entrances to hazardous areas for the handicapped. To order add: “with knurled knob” (outer or inner) in detail section of order.

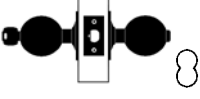

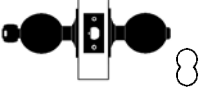

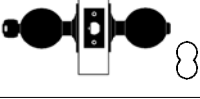

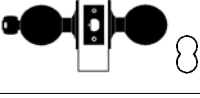

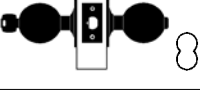

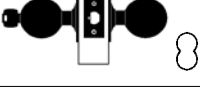

**Trim finishes chart**

Description	ANSI No.	Available on
Bright brass	605	All trim
Satin brass	606	All trim
Satin bronze	612	All trim
Oil rubbed bronze	613	All trim
Bright chrome	625	All trim
Satin chrome	626	All trim
Satin stainless steel	630	Troy knobs only

## Functions

To order Falcon T Series locksets, please consult page 53 for ordering information and assistance.

 Indicates interchangeable core available.

Catalog number	Function	Name	Description	ANSI No. & Grade
X101		Passage/closet set	Latch bolt by knobs at all times.	F75
X301		Privacy lock	Latch bolt by knobs. Outside knob locked by push button in inside knob. Rotating inside knob or closing door releases push button. Emergency release in outside knob. Emergency Release Tool 001423-001-30.	F76
X411		Asylum lock	Deadlocking latch bolt by key from either side. Both knobs rigid.	F87
X501		Entry lock	Push button locking. Button on inside locks outside knob until unlocked by key or by rotating inside knob.	F82
X511		Entry/office lock	Turn/push button locking. Pushing and turning button locks outside knob requiring use of key until button is manually unlocked. Push button locking. Pushing button locks outside knob until unlocked by key or by turning inside knob.	F109
X521		Office lock	Turn button locking. Turning button locks outside knob requiring use of key until button is manually unlocked. Inside knob always free.	F81
X561		Classroom lock	Deadlocking latch bolt by knobs. Outside knob is locked by key in outside knob. Inside knob is always free.	F84
X571		Dormitory lock	Deadlocking latch bolt by knobs except when locked by push button in inside knob. Key in outside knob locks or unlocks outside knob and releases button. Closing door releases push button. Inside knob always free.	F90
X581		Storeroom lock	Deadlocking latch bolt by inside knob or key outside. Outside knob rigid.	F86
X12		Single dummy	Single trim—surface mounted.

# How to order

For correct ordering, and to ensure no delays in shipment of your order, the following descriptive data must be listed in the sequence shown. Necessary information can be found in other parts of this catalog. The example below shows an order for 20 each X locksets in the 301 Privacy function, EG (Elite-Gala) trim design in a 626 (satin chrome) finish, with 2 3/4" backset latch, to accommodate doors 1 3/4" thick.

- **Quantity:** Indicate the quantity required.
- **Catalog number:** Select function number, cylinder type, and latch style from tables in this section.
- **Trim design:** Indicate letter of knob/rose design. EG = Elite/Gala; HY = Hana/York. Outside design always precedes inside design on split designs.
- **Finish:** When the finish is the same for the outside and inside trim, it is shown once (626). Outside finish always precedes inside finish on split finishes (605 x 625).
- **Latches:** 2 3/4" backset is standard. 2 3/8" backset available. All latches are UL listed 3-hour A label.
- **Strikes:** 4 7/8" x 1 1/4" ANSI standard. Optional T-strike or full lip strike available. See page 51.
- **Cylinder type:** 6-pin standard. For 7 pin add PD7 to product catalog numbers (eg. X511PD7 HAN). 7 pin conventional cylinders are available in Hana knob style only.
- **Door hand:** Locks are field reversible. Please specify handing on all keyed locks so that cylinders can be assembled in the upright position.
- **Keying detail:** We suggest using the standard terms developed by DHI (Door and Hardware Institute).
  - Example: AA1 - Grand Master keyed, Master keyed, change key 1.
- **Interchangeable core:** To order product capable of accepting an interchangeable core, add suffices from the keying table to the function number, preceding the latch style.
  - Example: X511HD will be supplied with SFIC keyed construction core.
- **Keyways:** "G" is standard on regular cylinders, "A" is standard on interchangeable cores. Other keyways available.
- **Additional keys:** Note the total number of keys required.
- **Large bow keys:** Add—"with large bow keys."
