

## 1500 Series and 1600 Series Electric Strikes

## Installation Instructions

### **IMPORTANT NOTE:**

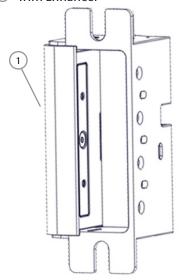

For the Schlage L9000 or Yale 8700 Series, please see Page 3 of instructions for installation with offset.

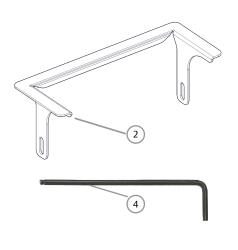

NOTE: Installation wiring for the product and wiring methods shall be in accordance with the National Electrical Code, ANSI/NFPA 70.

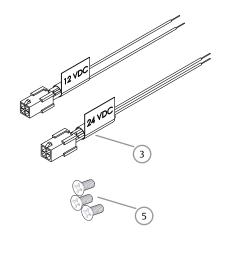

### **Product Components**

- 1500 Series or 1600 Series Electric Strike (3) Pigtails (12 VDC and 24 VDC)
- ⑤ #6-32 x 3/16" Phillips Head Screws to Mount Trim Enhancer

4 5/64" Hex Wrench

### **Specifications**

| ELECTRICAL RATINGS FOR<br>1500/1600 (Solenoid) | Solenoids are rated at +/- 10% indicated value.  * Applies to AC Only: 10% max duty cycle (2 min. max on time) |        |            |        |
|--|--|--------|------------|--------|
| VOLTAGE  | 12 VDC   | 24 VDC | 12–16 VAC  | 24 VAC |
| CONTINUOUS DUTY                                | 0.24A  | 0.12A  | -          | -      |
| INTERMITTENT DUTY*                             | -  | -      | 0.24-0.32A | 0.12A  |

| ELECTRICAL RATINGS FOR<br>1500E/1600E (EcoStrike™) | Input voltage: 10–30 VDC, Autosensing |        |        |        |  |
|--|---------------------------------------|--------|--------|--------|--|
|  | Minimum Activation Duration: 1 second |        |        |        |  |
| VOLTAGE  | 10 VDC                                | 12 VDC | 24 VDC | 30 VDC |  |
| IN RUSH CURRENT                                    | 0.475A                                | 0.460A | 0.220A | 0.215A |  |
| CONTINUOUS DUTY                                    | 0.010A                                | 0.009A | 0.005A | 0.004A |  |

|                                 | VOLTAGE  |          |  |  |
|---------------------------------|----------|----------|--|--|
| MINIMUM WIRE GAUGE REQUIREMENTS | 12VDC    | 24VDC    |  |  |
| 200 feet or less                | 18 gauge | 20 gauge |  |  |
| 200 - 300 feet                  | 16 gauge | 18 gauge |  |  |
| 300 - 400 feet                  | 14 gauge | 16 gauge |  |  |

**NOTE:** The above table applies to Models 1500, and 1600.

### **Ratings**

**Static Strength:** 1,500 lbs **Dynamic Impact:** 70 ft-lbs **Endurance:** 250,000 cycles

### **UL294 Performance Levels**

**Destructive Attack: Line Security: Endurance:** 

Level 1 (No attack test) Level I (No Line Security) Level IV (100,000 cycles)

**Standby Power:** Level I (No secondary power source)

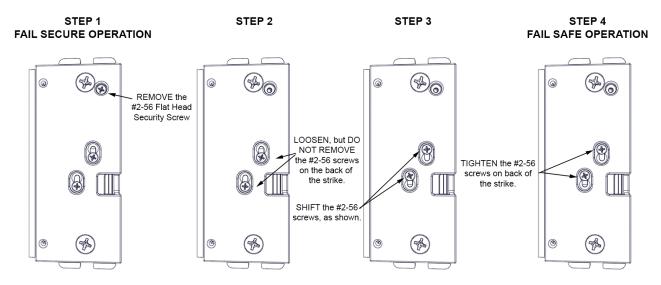

ASSA ABLOY, the global leader in door opening solutions

## **Converting the Operation Mode**

**IMPORTANT NOTE:** Converting the electric strike to FAIL SAFE mode negates the unit's fire rating.

**NOTE 1:** The 1500 and 1600 Series Electric Strikes ship configured for FAIL SECURE OPERATION. The steps below are provided to convert to FAIL SAFE OPERATION, if desired.

**NOTE 2:** The suitability of the locks in the FAIL SECURE OPERATION mode is up to the local Authority Having Jurisdiction (AHJ) and emergency exit hardware may be required in such installations.

## **Connecting the Power**

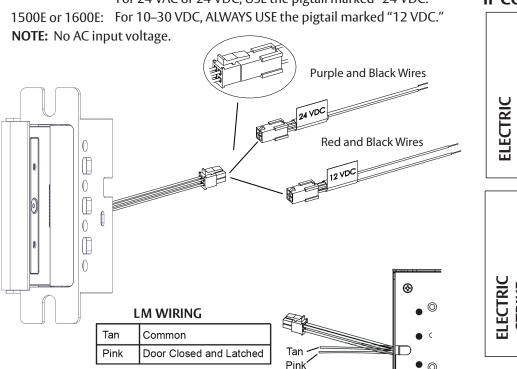

**IMPORTANT NOTE:** Before electrically connecting the device, the input voltage must be verified using a multimeter.

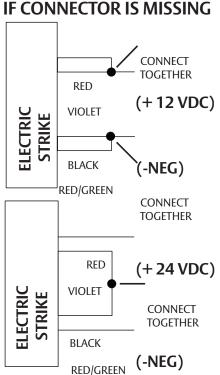

Many power supplies and low voltage transformers operate at higher levels than listed. Any input voltage exceeding 10% of the electrical specification (see Page 1) may cause severe damage to the

unit and will void the warranty.

1500 or 1600: For 12 VAC, 12 VDC, or 16 VAC, USE the pigtail marked "12 VDC."

For 24 VAC or 24 VDC, USE the pigtail marked "24 VDC."

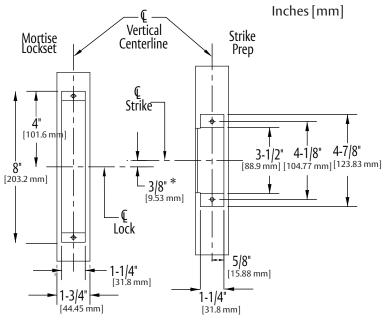

## **Preparing the Frame**

### **MORTISE LOCKSETS**

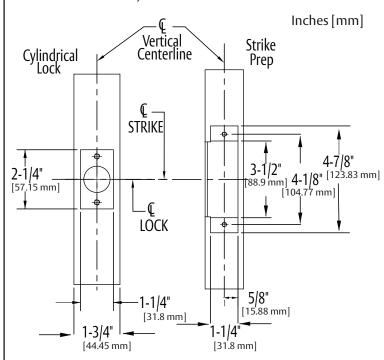

Please note the horizontal centerline of the electric strike in relation to the centerline of the mortise lockset.

\* Can be Mortise lock and option specific. See figures below if using a Schlage L9000 or Yale 8700 series.

#### CYLINDRICAL LOCKSETS

Please note the horizontal centerline of the electric strike in relation to the centerline of the cylindrical lockset.

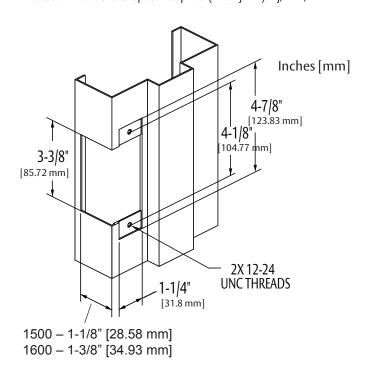

### METAL JAMB DIMENSIONS FOR FACEPLATES

#### Normally Used With Mortise Locks Without Deadbolt

NOTE: Cannot be used with Schlage L9000 or Yale 8700 series.

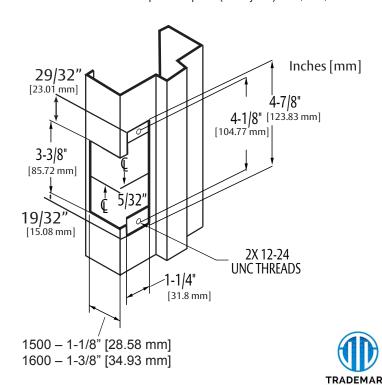

Cutout dimenstions for option faceplates (metal jamb): 11, 1KM, 1NM

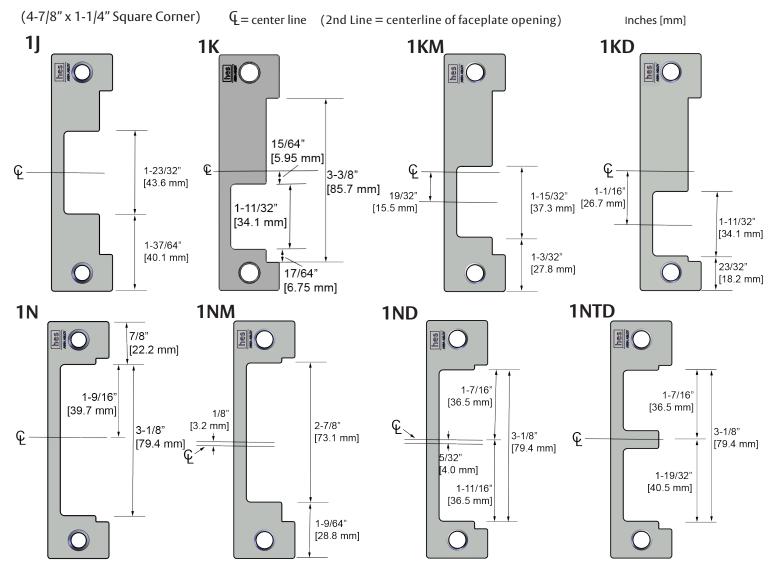

#### Normally Used With Mortise Locks With Deadbolt

**NOTE:** Can be used with Schlage L9000 or Yale 8700 series.

Cutout dimenstions for option faceplates (metal jamb): 1KD, 1ND, 1NTD

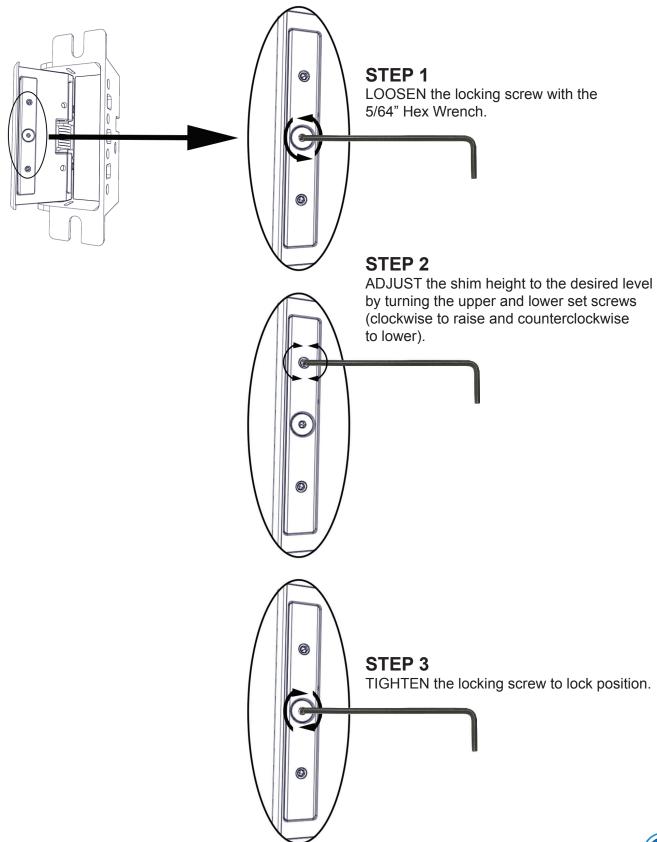

# **Selecting the Appropriate Faceplate Option**

| OPTION           |                  | DESCRIPTION  | 1500 | 1600     |  |
|------------------|------------------|--|------|----------|--|
| 1J               | For Use With:    | Cylindrical locksets with up to 3/4" throw and all locksets with center-lined bolts. | Х    | Х        |  |
| 13               | Compatible With: | All brands of cylindrical latchbolts   | ^    | Χ        |  |
| 1K For Use With: |                  | Mortise locksets with up to 3/4" throw latchbolt.                                    | Х    | Х        |  |
| II.              | Compatible With: | Baldwin, Marks, PDQ  | ^    | ^        |  |
|                  | For Use With:    | Mortise locksets with up to 3/4" throw latchbolt.                                    |      |          |  |
| 1KM              | Compatible With: | Accurate, Arrow, Best, Corbin Russwin, Falcon, Sargent (7800, 8200, and 9200),       | X    | Χ        |  |
|                  |                  | Yale (8800)  |      | <u> </u> |  |
| 1KD              | For Use With:    | Mortise locksets with up to 3/4" throw latchbolt.                                    | Х    | Х        |  |
| IND              | Compatible With: | Dorma (9500), Jackson, Sargent (7700 and 8100), Schlage, Yale (8700)                 | _ ^  | ^        |  |
| 1N               | For Use With:    | Mortise locksets with deadbolt for night latch function only.                        |      | Х        |  |
| 114              | Compatible With: | Accurate, Baldwin, Marks, Omnia, PDQ, Schlage  |      | ^        |  |
|                  | For Use With:    | Mortise locksets with deadbolt for night latch function only.                        |      |          |  |
| 1NM              | Compatible With: | Accurate, Arrow, Baldwin, Best, Corbin Russwin, Falcon (45H, 47H, 34H, and           |      | Х        |  |
|                  |                  | 37H), Marks, PDQ, Sargent (7800, 8200, and 9200), Yale (8800)                        |      |          |  |
| 1ND              | For Use With:    | Mortise locksets with deadbolt for night latch function only.                        |      | Х        |  |
| IND              | Compatible With: | Sargent (7700 and 8100), Schlage, Yale (8700)  |      | ^        |  |
| 1NTD             | For Use With:    | Mortise locksets with a normally extended 1" deadbolt and center-lined deadlatch.    |      | Х        |  |
|                  | Compatible With: | Accurate, Arrow, Baldwin, Marks, Omnia, PDQ, Schlage                                 |      | ^        |  |

# Adjusting the Shim

**NOTE:** To adjust the shim height, it is necessary to power the electric strike to open keeper.
