# INSTALLATION GUIDE

---

Use glazing compound or glazing tape on both sides of glass, install in an appropriately-listed and labeled vision frame. Certain optical and visual imperfections are inherent in the production process. These characteristics may be evaluated according to the manufacturer's quality standards but do not impair the transparency or affect the performance of the glass, and shall not be considered cause for rejection.

***Air Louvers frames for TEMP - VLF, VLFEZ, VSL (Slimline)***
