9514 AND 9583 BYPASS SETS

**TRADEMARK
HARDWARE**

WORLD OF QUALITY HARDWARE

INSTALLATION

2 INSTALL TRACK AND HANGERS

- Center track in opening and secure with (#8x1-1/4") screws
- Center first drill hole 1/2" from edge of door
- Secure Carriers onto door with (#8x3/4") screws

3 HANG DOORS

- Mount rear door first by tilting door back and resting carrier wheels on rear rail
- Repeat for front door on front rail

4 ADJUST AND FINISH

- Adjust carriers so door is square with frame
- Install door guides in center of opening, where doors overlap
- Drill 3/4" diameter hole 3/8" deep to mount door pull
- Install stops (optional)
